graph

# plug and play

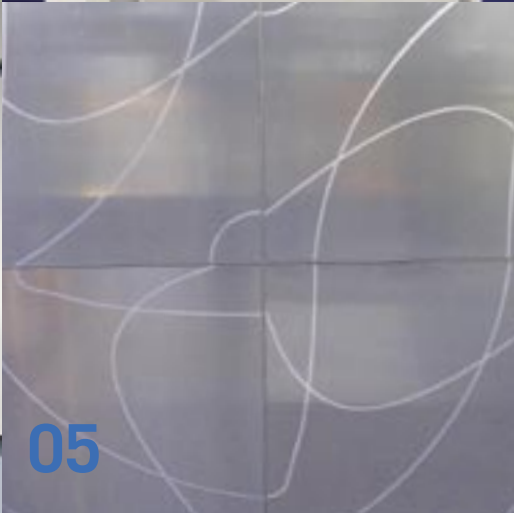

*graph* is a revolutionary interior panel system that expands the world of interior possibilities with an attractive alternative to custom millwork.

*graph* is a fully engineered aluminum platform that utilizes modular panels to build flexible wall surfaces.

*graph* is a non-progressive system which allows for panels to be exchanged independently.

get *graph*.

## Standard Metal Surfaces

Fry Reglet has developed an eye-catching line of metal panels that, when combined, create stunning surfaces. Steel panels are available in enamel and powder paint; aluminum panels are available in mirror, clear anodized and powder paint.

- 01 Wedge
- 02 Diagonal Peak
- 03 Diagonal Valley
- 04 Bias
- 05 Line Routed
- 06 Powder Coat
- 07 Rib
- 08 Dimple
- 09 Flat

## Standard Wood Veneer Surfaces

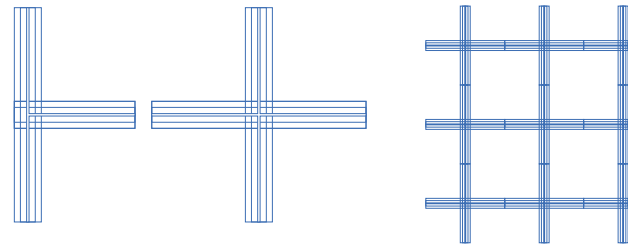

Fry Reglet offers wood veneer panels in four tech grain species: cherry, oak, mahogany and maple, each in their natural finish.

## Alternative Surfaces

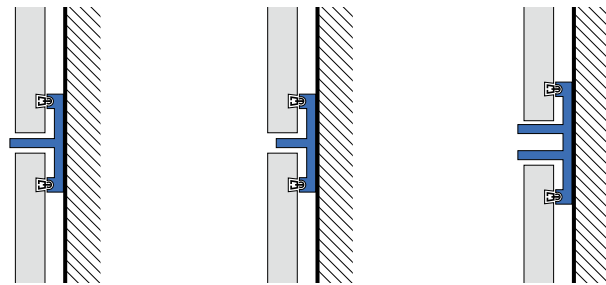

Fry Reglet will work with suppliers to create custom panels of glass, laminate, translucent resin, writeable surfaces and digitally printed graphics.

Prefabricated intersection elements combine to develop structural framework.

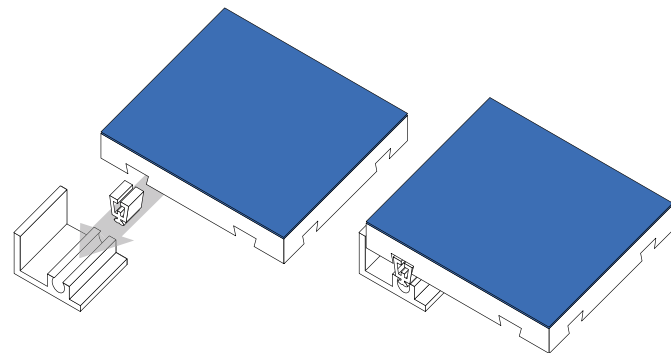

Select from four reveal options to fit your design

Select standard dimension surface panels or explore custom dimensions

01-06 Metal Surface Dimensions		Wood Veneer Surfaces Dimensions	
1' x 1'		2' x 2'	2' x 8'
2' x 2'			
07-09 Metal Surface Dimensions			
1' x 1'	1' x variable length	2'-6" x 2'-6"	2'-6" x 8"
2' x 2'	2' x variable length		

Connection clip locks panels into framework with precision and stability

# Engineered System

Extruded aluminum grid platform and finished panel components arrive ready to install.

# Accessible & Flexible

Flexible framework system accepts direct panel installation in any sequence.

# Expansive Applications

Panel material and finish options for institutional, commercial and retail environments.

# Competitive Pricing

High performance, attractive alternative to conventional custom millwork.

# Advice & Detailing

We can provide detailed shop drawings and precise installation instructions from concept sketches.
